

CONSEIL SCOLAIRE DE DISTRICT CATHOLIQUE
des **Aurores boréales**

planning together for individual success

I am very proud of our 2011-2015 Strategic Plan which will lead us towards excellence. This plan is the result of numerous discussions with our partners and was inspired by the vision of our trustees. It is a strategic map which will help us align our efforts over the next four years allowing us to “Plan together for individual success”.

Sylvianne Mauro

Director of Education &
Secretary Treasurer

Mission – What we do

Our personalised education, where every student can achieve his or her full potential in a safe and welcoming environment, lies at the heart of our francophone and catholic communities.

We contribute to cultural and spiritual growth, and provide considerable vitality to our diversified communities.

Vision – What we strive for

The Conseil scolaire de district catholique des Aurores boréales focuses on excellence in education and is renowned for:

- its individualized and innovative approach
- its environment, where every student proudly expresses his or her francophone culture and catholic faith
- its active and responsible involvement in the community

Our Strategic Plan 2011-2015

Guiding Principles – How we do things

Our approach to planning, management and ongoing assessment emphasises:

- A collaborative, innovative approach
- Effective and timely communications
- Decision-making processes based on relevant data

Values – Who we are

The child as cornerstone: We fully recognize that the child is our priority, our pride and our raison d'être.

Client-focused approach: We are welcoming, accessible, effective and client-centered.

Recognition: We value and sincerely commend efforts, progress and success, large or small.

Collaboration: We work together towards common goals in a spirit of mutual support and attentive listening.

Respect: We demonstrate respect for ourselves and others... in our actions, as in our words.

Strategic Aims – What we want to accomplish

Students' overall success

Our classroom teaching integrates the principles of differentiated education, taking into account each student's profile as well as his or her academic, social, spiritual, cultural and professional development.

Community engagement

The Board contributes to the vitality of its communities.

Performance

Each member of the administrative and support staff is provided with a professional development plan in order to optimize performance.

Technological Innovation

The Board uses technology to maximize information sharing, as defined by client needs (students, parents and staff).
